

JONATHAN SAINSBURY

Country House Chair

An exceptional model quite possibly derived from a design by Howard. The show wood legs are fine period mahogany with specialist lightly aged polishing, terminating in finely cast and lightly aged brass castors. The Country House Chair is of a generous proportion with classically fully sprung seats and back which makes it exceptionally comfortable. The chair can be upholstered in the client's own material or specialist upholstered in hand-dyed leather, as shown in the image.

Height: 990mm / 39"
Width: 840mm / 33"
Depth: 900mm / 39"

Code: M354
